

# Transform Your Creative Future

## Master UI/UX Design with Yuvabe Education's 12-Week Immersive Launchpad

Step confidently into the world of UI/UX design. Yuvabe Education's 12-week, full-time UI/UX Design Launchpad blends design theory, practical application, and expert mentorship to help you launch a successful career in one of today's fastest-growing creative fields.

**Duration:** 12 Weeks

**Start Date:** August 2025

**Mode:** In-Person, Classroom Sessions

**Location:** Saracon Campus, Yuvabe, Auroville, Tamil Nadu

**Certification:** UI/UX Design Certificate recognised by employers and institutions

**Internship:** Paid internship for the top 3 students

## Why Choose Yuvabe's UI/UX Design Launchpad?

### In-Person Training by Industry Experts

Learn directly from experienced UI/UX professionals who bring real-world insights to the classroom.

### Immersive Learning in Auroville

Study in a creative, sustainable ecosystem that fuels focus, innovation, and personal growth.

### Hands-On Projects and Case Studies

Apply your learning through live design projects, user research, wireframing, prototyping, and usability testing.

### **Evolve Program for Holistic Development**

Grow beyond technical skills with leadership training, confidence-building, and problem-solving workshops.

### **Paid Internships for Top Performers**

Top 3 students receive a 3-month paid internship at Yuvabe, gaining professional experience.

### **Job-Ready Certification**

Earn a credential recognised by employers and academic institutions.

### **Inclusive and Affordable**

Flexible payment plans and need/merit-based scholarships available, with 100% scholarships for 5 eligible women from the bioregion.

### **Communication and Presentation Skills**

Strengthen your ability to articulate design decisions clearly and confidently.

### **Portfolio Building and Career Guidance**

Graduate with a polished portfolio and guidance for interviews and job applications.

## **What You'll Learn**

This immersive program spans 12 modules designed to take you from beginner to job-ready UI/UX designer:

1. Introduction to UI/UX Design – Fundamentals and industry trends
2. User Research and Analysis – Understanding user needs
3. Wireframing and Prototyping – Creating mockups with Figma, Adobe XD
4. Information Architecture – Structuring digital content
5. UI Design – Crafting visually appealing, functional interfaces
6. Interaction Design – Enhancing experience with microinteractions
7. Usability Testing – Improving designs through user feedback
8. Mobile and Web Design – Responsive design principles
9. Design Thinking – Creative problem-solving strategies
10. AI in UI/UX – Emerging technologies in design
11. Resume and Portfolio Development – Preparing for job applications
12. Capstone Project – Final presentation and assessment

## The Evolve Program

The Evolve Program is Yuvabe's signature personal growth module. It empowers students with communication, leadership, and resilience-building skills that complement technical learning.

You will learn how to:

- Communicate ideas confidently
- Lead with empathy and clarity
- Manage time and challenges effectively
- Practice self-awareness and reflection through activities like journaling and meditation
